Experience

Grid Dinamics, UI Engineer

07/2021 - 04/2022

Mostly worked for medical MedTech company that helps people to lose weight. My team worked on the marketing site that was written in React & NextJS, added features and integrations for different form flows in Formsort, developed new pages for Prismic, added tags for marketing team in Google Tag Manager.

Responsibilities:

- Developing functionality for marketing site: from specifications review and coding to deployment
- Adding features for form flows
- Adding and updating integrations with marketing tools via tags in Google Tag Manager
- Clarifying requirements with stakeholders
- Setting up integrations between different tools
- Fixing bugs
- Performing code reviews
- Participating in backlog refinement, planning and retro

Technologies:

- React
- Next.js
- Prismic
- Netlify
- Google Tag Manager
- Formsort
- AWS
